

# Empowering The Youth.

Creating The Workspace To Encourage Creativity And Teamwork

## Message From Chairman

Carrying a legacy and trust for over 100 years, Golchha Group continues to lead the way in Nepal paving a path for industrial development and economic growth. From the time our late founder, Mr. Ramlal Golchha established Nepal's first industry, Golchha Group has constantly worked on adding value to the economy of Nepal.

As one of the youngest average aged country, Nepal has a new generation of youth entering the workforce, bringing new thinking processes, new ideas and a new perspective. Our focus is to empower this new generation by creating a workspace that promotes creativity, teamwork and learning.

Golchha Group plans to generate sales of USD 500 Million by the year 2020 in a diverse range of industries. However, we continue to channel our energy in activities beyond businesses with our CSR efforts. Our efforts are focused in providing education to children in the rural parts of the nation.

Shekhar Golchha - Chairman

## Areas Of Expertise

**Industry**

We are running a diverse range of industries ranging from consumer electronics manufacturing, animal vaccine manufacturing and Nepal's only automotive assembly unit.

**Trade**

With over 1000 sales and service points, we have a widespread network in every region of the country to provide the best sales and after-sales experience to our customers

**Service**

We are constantly adding value to our customers by providing easy finance availability with our in-house investment solution. With our newest venture, we now have our customers' future with a life insurance company.
